

FULLCOURT ENTERPRISE™

TRANSFORMING THE WAY YOU MANAGE YOUR COURT

Courts are diverse and complex entities—full of carefully choreographed processes, overlapping and intersecting tasks, and hundreds of details that have to be addressed every day. So how do you manage all these intricate details efficiently and effectively? How can you automate and simplify mundane repetitive tasks, so you can focus on what matters most? And how do you turn all the disjointed, disconnected pieces of your court system into a cohesive, unified whole—without forcing people to change the way they work?

The Answer is FullCourt Enterprise™—A court case management solution that is complete and powerful enough to solve your toughest court management challenges and flexible enough to adapt to the unique requirements of any organization.

FullCourt Enterprise provides a powerful back-end infrastructure, an innovative browser-based user interface, and a comprehensive collection of modular tools and applications.

It includes a complete family of services—from initial custom configuration, deployment and consulting services to ongoing training, technical support, and help desk capabilities. And it offers a level of flexibility that allows us to create solutions that perfectly complement and enhance your existing processes and procedures.

JUSTICE
SYSTEMS®

FullCourt Enterprise is a court case management solution that is complete and powerful enough to solve your toughest court management challenges.

The screenshot displays two overlapping windows from the FullCourt Enterprise software. The background window is titled 'REMINDER SEARCH' and shows a sidebar with various case management options like 'Associated Cases', 'Case File Tracking', and 'Reminders'. The foreground window is titled 'PAYMENT PLAN INSTALLMENTS' for 'Smith, John' and shows a summary of the payment plan, including the status, agreement date, and a table of installments.

PAYMENT DATE	AMOUNT DUE	AMOUNT PAID	BALANCE DUE
11/01/2009	\$40.00	\$40.00	\$0.00
12/01/2009	\$10.00	\$10.00	\$0.00
01/01/2010	\$10.00	\$10.00	\$0.00
02/01/2010	\$10.00	\$10.00	\$0.00
03/01/2010	\$10.00	\$10.00	\$0.00
04/01/2010	\$10.00	\$10.00	\$0.00
05/01/2010	\$10.00	\$10.00	\$0.00

FULLCOURT *ENTERPRISE* IN ACTION

FullCourt *Enterprise* is an integrated solution that can automate and improve every aspect of your daily operations. Here's how it works:

- An open, standards-based infrastructure gives you complete freedom to implement a solution that perfectly matches your needs and requirements.
- A flexible, customizable table-based architecture stores information about all the parties in your court system. This means you can process future cases, charges, citations, and other interactions without re-entering personal or other repetitive information.
- Sophisticated document production capabilities make it easy to automatically create and manage an unlimited number of custom documents and forms.
- A comprehensive scheduling system manages the scheduling of judges, attorneys, officers, hearings, and court rooms—and simplifies the process of resolving conflicts and reassigning resources.
- An integrated court financial system makes it easy to assign, manage, and collect fines, fees, and court costs—and then collect and process full or partial payments.
- A flexible browser-based user interface brings all of FullCourt *Enterprise's* impressive features together into a cohesive visual environment that simplifies and automates common tasks—from viewing digital photos and personal information to performing common “in-court” processing functions.
- Additional modules can add even more advanced capabilities to your FullCourt *Enterprise* solution—from accepting ePayments over the Internet to document imaging.

INNOVATIVE TECHNOLOGY BACKED BY COMPREHENSIVE SERVICES

FullCourt *Enterprise* is backed by a unique commitment to personalized customer service and a complete range of technical support, help desk, training, consulting, and custom development offerings. Our product design and technical teams include people with decades of collective real-world experience in the court, so they understand your world and know exactly how to use FullCourt *Enterprise* to address your most pressing challenges.
